

FULL COLOR WINDOW ELECTRONIC MESSAGE CENTER

ATTRACT THE ATTENTION YOU DESERVE!

Advertise through your storefront window with a Full Color Electronic Message Center. Designed for window applications, these compete with the sun at a stunning brightness of 5,500+ Nits compared to 500 Nits of a typical TV.

Virtually unlimited advertisements can rotate and even be scheduled through the power of Impact Cloud+ Software. A lifetime subscription to Impact Cloud+ is Included with each sign.

These Indoor electronic message center signs fit inside a window and come ready for installation including suspension packs to hang the sign. The following connectivity options are built in: Wi-Fi, Ethernet and USB upload. Each sign's 9' cord is ready to plug into a standard electrical outlet.

CAPABILITIES

- Time
- Date
- Full Color Text
- Full Color Video
- Full Color Images
- Advanced Scheduling
- Temperature from the cloud
